

**In the Specification**

At page 13, please delete the paragraph beginning with “Fig. 8...” and replace it with the following paragraph:

--Fig. 8 illustrates an exemplary bottom perspective view, partly broken away, of two assembled headers of a header assembly 800. The header assembly 800 includes a first header 810 and a second header 820 and a second header 820. The first header 810 includes a retention arm 830 that is mounted within an opening 840 in the second header 820. The opening 840 includes a ridge 850 that is locking the retention arm 820 within the opening 840.--
